NAZARENE MISSIONS INTERNATIONAL

12 April 2023

## Africa Region

## Zimbabwe

Zimbabwe is a landlocked country in southern Africa known for its dramatic landscapes and diverse wildlife, much of which can be seen in national parks, game reserves, and safari areas. On the Zambezi River, the Victoria Falls plunge from a height of 108 meters (over 350 feet) into narrow gorges. The refreshing waters of that great river give life wherever they flow, much like the message of the gospel brings hope to those living in a parched land. The work of the Church of the Nazarene began in Zimbabwe in 1963, just two years after the country declared its independence, which favored whites in governing power. The British rejected this independence until free elections were held in 1979 recognizing the voting rights of the black African majority, with independence formally declared in 1980. This speaks to the sense of urgency in a country that felt it had a brief "open door" for the Church of the Nazarene to enter. We must be ever ready to step into those moments of opportunity to share the Good News of Jesus and to spread the transformative message of scriptural holiness.

# NMI SNAPSHOT

*“In everything I did, I showed you that by this kind of hard work we must help the weak, remembering the words the Lord Jesus himself said: ‘It is more blessed to give than to receive.’” Acts 20:35 (NIV)*

Nazarene Missions International in Zimbabwe introduced a ministry to the elderly. This year, the members of NMI on the Zimbabwe East District embarked on a journey of reaching out to the elderly in the district and beyond. The aim is to preach the Gospel and to encourage many who are lonely or feel hopeless. Senior citizens face a lot of challenges, some of them being loneliness and lack of necessities. It is against this background that we decided to be a cheering presence among the elderly people in our communities.

Through this ministry, we have also discovered that we have many elderly people in communities who are members of the Church of the Nazarene. These people have been unable to go to church because of old age. NMI is becoming instrumental in reaching out with the Gospel of Jesus Christ while also meeting some of their physical needs whenever we can.

Last month, one team went to the Buhera community in Manicaland province to cheer the elderly there. It was a powerful experience, showing the love of Jesus Christ to the elderly in tangible ways. In one case, NMI has adopted an elderly woman, buying her groceries every month. We hope to make a great impact on the lives of our youth, our children, and the elderly as we learn more effectively what it means to be intentionally intergenerational.
